

Schedule for the 16 March 2009 Particles Meeting, Lecture Room 4, University Engineering Department, Trumpington Street, Cambridge

Chairmen: Nick Collings, Kingsley Reavell

09:00	Refreshment		
09:15	Markus Kraft	University of Cambridge	New Developments in Modelling Soot Formation in Engines
09:45	Saamyabrata Banerjee	University of Brunel	Multi-lognormal Distribution for Characterising Diesel In-cylinder and Exhaust Soot
10:15	Phil Whitefield	Missouri University of Science & Technology	DMS500 Measurements of PM Emissions from Alternative Aviation Fuels
10:45	Break / resynchronize		
11:00	Jon Andersson	Ricardo	Update on the UN-ECE GRPE Particle Measurement Programme
11:30	John McAughey	British American Tobacco	Real-time Aerosol and Chemical Measurement of Tobacco Smoke
12:00	Alison Tomlin	University of Leeds	Modal Analysis of Roadside Particle Size Distributions
12:30	Light lunch		
13:30	Phil Price	University of Oxford / Ford	Direct Injection Gasoline Engine Particulate Emissions
14:00	Richard Stone	University of Oxford	More Direct Injection Gasoline Engine Particulate Emissions
14:30	Jon Andersson	Ricardo	GDI Particles: Legislation, Current Levels And Control
15:00	Break / resynchronize		
15:15	David Kittelson	University of Minnesota	Inorganic Particulates
15:45	Jeremy Gidney	Johnson Matthey	PM Number and Size Distribution Measurements
